FROM THE COMMANDANT

‘Five…Gold…Rings…Lines of effort’

I hope this finds you all well rested from the holidays of 2020… although quite a challenging year, we have much to be grateful for! The Community College of the Air Force (CCAF) has been charging ahead, paving the way for the future using five main lines of effort:

1. Renew and enhance strategic communication with all CCAF stakeholders.
2. Design a new Associate of Applied Science (AAS) degree pathway.
3. Update academic policies of old.
4. Modernize information technology, including the student information system and transcript ingress/egress.
5. Plan for future initiatives, including support the United States Space Force (USSF) Guardian students, and expand eligibility to sister service members enrolled in CCAF-affiliated courses, per the National Defense Authorization Act (NDAA) of 2020.

The lines of effort above sound like a lot of work…indeed it has been, but this fantastic team has made great strides! Below is an update to each:

Despite COVID, we’ve worked to integrate recurring communication at all levels of the chain of command. From providing CCAF information booths for First Term Airmen, and at every level of Professional Military Education, to developing relationships between our program managers and the Career Field Managers (CFM) for Air Force Specialty Code specific updates. We’ve communicated academic policy changes to Command Chiefs, Wing and Group Superintendents, and Education Service Offices through email, Town Halls, and advisor training now offered both virtually and in-person! And we’ve worked to roadshow changes and new programs to our senior leadership, including the AFSELC, even hosting CMSAF #18 Wright at the College back in March, prior to the COVID travel restrictions.

The rollout of the new AAS degree in Military Technology and Applied Sciences Management (MTASM), described in a previous quarterly update this year, is expected to be on-time for a Fall 2021 execution. This took many iterations of an internal prospectus between CCAF and Air University, who helped communicate a detailed plan of intent with Air University’s accrediting agency, the Southern Association of Colleges and Schools Commission on Colleges (SACSCOC). The Academic Programs Division is finalizing new catalog material, and will soon be working on a plan to prepare advisors on this new degree pathway.

The Academic Policy Changes communicated throughout this year required the establishment of an Academic Review Committee (ARC); the Academic Programs team who made possible the changes to the upgrade training credit, and in concert with the Campus Relations Division, refined (Continued on page 3)
processes on how academic experiences outside a collegiate course could be evaluated for credit. The remainder of steps to finalize all changes are in the hands of our hardworking AU/A6 information technology (IT) teammates, as these modifications required reprogramming of our current student information system.

Speaking of IT, our Enrollment Management Division has been hard at work on process improvement for the ingress of civilian school transcripts into the College, how they are loaded onto CCAF transcripts, and then sent out by the hundreds of thousands to more effectively and efficiently meet the needs of millions of active students and alumni!

Prototypes and process improvements have been made to enhance online transcript ordering, streamline diploma reprinting requests, and pairing with an e-transcript agency; all to be tested in January 2021. Additionally, this hardworking team has been attending daily requirements meetings for the anticipated enterprise-wide Air University Student Information System (AUSIS), which we are told will eventually replace our Student Transcript Administration Records System (STARS) within the next 18-24 months.

The changes summarized above will also help us make way to support two new cohorts: USSF Guardians, and service members outside of the Department of the Air Force participating in CCAF-affiliated courses. Although NDAA 2020 expanded eligibility in writing, it is necessary to navigate the details of this expansion, how those students will be advised, and by whom. And although these changes did not come with manpower or resources, we are confident our service teammates will be ready and willing to work out the particulars in the coming months. So stay tuned for that!

As you can see, CCAF has been running a marathon this year outside of our everyday operations, and the internal organizational changes needed to support these lines of effort. But this amazing team has continued to put in the miles of work with the same goal in mind: to ensure we posture CCAF for the future, to continue to be the Community College of choice for those with a calling to serve.

Thank you all for your contributions to this mission, and may your 2021 futures be bright!

Sincerely,

Lt Col Melanie Presuto
Commandant
FROM THE VICE COMMANDANT

Team:

First, I will begin by saying, “thank you” for your help in 2020 to ensure all Airmen successfully navigate their educational paths! You are at the front lines to answer questions, provide expertise, and put Airmen on a path to success. Some of these questions stem from recent CCAF policy changes and I applaud your efforts to not only keep up with the changes, but to ensure Airmen at your respective bases know as well. We held numerous town halls to accommodate various time zones to ensure all education service offices had the chance to ask specific questions in relation to their mission, challenges, and student population.

There is no easy way to sugarcoat the truth: 2020 was a difficult and very challenging year. As we look back, we can recall how unsure we were of what was before us, which was an unprecedented global pandemic. We feared the unknown and made significant changes, not only to our personal lives, but to professional commitments. Personally, we tried to keep our families safe and healthy, cognizant that at any given time, we could possibly become ill from the COVID-19 virus. We disinfected everything in sight and used as much personal protective equipment as we could find. Professionally, we began teleworking and figured out we could still do our mission from our basements, front porches, and family rooms.

Specifically at CCAF, we were in the midst of major academic policy changes, which impacted nearly every student throughout the Air and Space Force. Individually, these changes were significant, but when placed in and amongst the other changes, yielded major alterations to CCAF degrees. These changes needed to be made and will surely enhance CCAF’s credibility for years to come. Our team did a great job navigating the changes and working with students to iron out issues, provide recommendations, and even finalize Spring and Fall 2020 graduation requests!

As we begin a new year, we hope you and your teams find continued success. Best of luck and, “thank you” again, for advising our Airmen how to successfully reach their educational goals!

CMSgt Kevin P. Kloeppe
Vice Commandant
FROM THE DEAN

Authorities and Limits

Magnum Force is a 1973 thriller featuring Clint Eastwood as maverick cop Harry Callahan (following his popular movie, Dirty Harry in 1971). Having got the better of Lieutenant Neil Briggs (Hal Holbrook), who dies in the final scene, Callahan mutters: "A man's got to know his limitations." Similarly, CCAF has and must recognize its limitations. Moreover, CCAF needs everyone in the field to understand both the authorities and limitations of CCAF. This article is designed to highlight some of these major authorities and limitations.

1. CCAF is a Title 10 program established to provide degree pathways and other workplace credentials for Enlisted personnel (10 USC 9415).

2. CCAF degrees are provided for by federal policy and are awarded under the authority of Air University (10 USC 9417).

3. By DoD instruction, CCAF is the avenue by which an enlisted member’s academic credit/progress is documented (DODI 1322.25, Voluntary Education).

4. The National Defense Authorization Act (NDAA) for FY 2020 amended Title 10, USC, authorizing participation in CCAF programs by enlisted members of services other than the Air Force who are participating in CCAF-affiliated joint service training and education courses.

HOWEVER...

5. CCAF does not have the authority to direct CCAF-affiliated schools WHAT to teach, METHODS of instruction, or HOW LONG a program will last. These responsibilities reside within the career field and school house.

6. CCAF does not advise career fields/schools against nor prohibit change needed to curriculum content or methods, or other course changes as described above, nor does meeting institutional accreditation standards prohibit such changes.

7. Where items (5) and (6) above rise to level of substantive change as defined by our accrediting agency, CCAF is obligated to work with career fields/schools to ensure such changes are executed in alignment with sound academic practices and IAW accreditation requirements…collaboration is key!

8. Affiliating with the CCAF system is voluntary. Compliance with CCAF policies and procedures after deciding to affiliate is not (AFI 36-2670, Total Force Development).

(Continued on page 6)
In short, CCAF as an Air University college, has all the authority it needs to offer, award, and monitor degree programs; provide workplace and industry-related credentials as well as award academic credit for credentials where appropriate; and provide related programs and services. Yet there are limits to what we can and should do. Our commitment is to do our job while at the same “staying in our lanes.”

FROM MEDIA & DISTANCE LEARNING

CCAF Graduation Speakers Available During COVID-19 By Video

The Commandant and Dean of the Community College of the Air Force continue to be available to provide graduation messages to students during graduation ceremonies, even during the corona virus pandemic known as COVID-19. However, because of COVID-19, these graduation messages have been pre-recorded for Bases to use according to their schedules without the need to coordinate with CCAF, since no TDY travel is currently involved.

Lt Col Melanie Presuto and Dr. Hank Dasinger, the Commandant and Dean, respectively, for CCAF participated in a video project resulting in the production of CCAF graduation speaker videos that can be used for CCAF graduations at Bases for our Air and Space Force professionals. As the corona virus continues, the CCAF leadership continues to provide additional virtual media to assist our members in the field.

(Continued on page 8)
To view the CCAF graduation speaker videos and other CCAF virtual media you can use, please visit these links below:

CCAF Marketing Team Safely Briefs FTAC During COVID-19

Despite COVID-19, CCAF’s Marketing Team continued to brief CCAF programs to base classes. One of these classes is the First Term Airmen Center, known as FTAC. In the past couple of years, our Marketing Team briefed new FTAC students each month. However, when the corona virus pandemic known as COVID-19 hit, many base classes were paused due to the pandemic. That was the case with FTAC, which was shut down in April 2020. After putting social distancing proper protocols in place, the class resumed in August 2020, sometimes being held twice monthly to catch up with the base backlog.

Assisting in the FTAC backlog for CCAF were two outstanding program managers, TSgt Stefany Hill and TSgt Christina Lariccia. TSgt Hill, who has been on the marketing team for three years, including past leader of the CCAF Right Start Team, took the initial lead in ensuring CCAF had a base presence for the course. Both TSgt Hill and TSgt Lariccia bring a wealth of knowledge to the FTAC class, making students aware of how to use AFVEC and CCAF Online tools, how best to complete their CCAF associate of applied science degree, and the benefits of using CCAF’s other programs such as AFCOOL, AU-ABC, GEM, and professional certifications when eligible. Even during COVID-19, where they are masked up and careful to maintain social distance, they continued to reach their goal of providing students as much information as possible to help ensure their success in their Air Force career. They are highly motivated and enthusiastic, which leads to piquing students’ interest as evidenced by the many questions during their presentations.

To view some of the short videos shown at FTAC, go to these sites:
- TSgt Lariccia’s video regarding her pharmacy degree: https://www.dvidshub.net/video/731214/ccaf-pharmacy
- TSgt Hill and TSgt Lariccia (and other staff members) on a CCAF overview: https://www.dvidshub.net/video/731405/ccaf-overview
- Staff member Mr. Donald Ellwood’s FTAC video: https://www.dvidshub.net/video/733368/ccaf-ftac

How To Contact CCAF During COVID-19

Since many members of the Community College of the Air Force staff are teleworking, it might be difficult to get through by phone. For students who have questions regarding transfer credits, transcripts, graduation status and more, the first step should be to contact the Education Advisor at the nearest AF Base Education Office. If that does not work, please use these contacts:

Education Services: ccaf.edservices@us.af.mil

Transcript issues: registrar.ccaf@us.af.mil

AF Credentialing Opportunities Online (AFCOOL): Log into AFVEC/AFCOOL at: https://afvec.us.af.mil/afvec/af-cool/welcome (CAC required)

Certifications or Credentialing: Use Air University (AU) Service Desk at: https://auservicedesk.af.edu

Affiliated Schools or CCAF Instructors: ccaf.fac@us.af.mil

AU-ABC or GEM programs: ccaf.decm@us.af.mil

You can still contact our phone tree by calling our main number at DSN 749-5000 or Commercial 334-649-5000. Just keep in mind that many of our staff members are teleworking on various days.

For information on CCAF programs, contact ccaf.decm@us.af.mil or visit our website at the following links:

CCAF Pharmacy Technology AAS Degree Program Closure

The Medical Education and Training Campus (METC), located at Fort Sam Houston TX, is a tri-service technical training campus whose mission is to deliver medical training and education to United States Army, Navy, and Air Force military personnel. METC has been a CCAF branch campus (affiliated school) since 10 July 2013.

METC has proceeded with authorities provided in the FY16 National Defense Authorization Act (NDAA) for the Uniformed Services University of the Health Sciences (USUHS) to grant undergraduate degrees. Agreements have taken place to realign enlisted medical curriculum and faculty from CCAF to the College of Allied Health Sciences (CAHS), a branch campus of USUHS. USUHS holds accreditation with the Middle States Commission on Higher Education.

METC moved the Pharmacy curriculum and faculty to CAHS on 28 October 2020. In result, it is no longer feasible for CCAF to continue offering its Pharmacy Technology AAS degree. Effective 28 October 2020, CCAF discontinued registration of new students in this AAS degree program. However, CCAF is committed to enable students who are already registered in the degree program the opportunity to complete the remaining program requirements and graduate in the CCAF AAS degree within the teach-out period. The teach-out period for this AAS degree program is six years, ending 28 October 2026.

CCAF will officially close the Pharmacy Technology AAS degree program at the end of the teach-out period.

Students currently enrolled in this degree program must meet all degree program requirements to be awarded the degree within the teach-out period. It is the student’s responsibility to complete sufficient courses and credit each semester to enable themselves to complete the degree within the time allotted.

Per the teach-out plan, all registered students in the CCAF Pharmacy Technology AAS degree program have been notified of program closure and the teach-out period.

Mr, J.R. Breeding, Associate Dean of Academic Programs
FROM ACADEMIC PROGRAMS

CCAF to CAHS Degree Program Transfer Timeline

The chart below provides the status of Medical Education and Training Campus (METC) curriculum and faculty alignment from CCAF to the College of Allied Health Sciences (CAHS). Additionally, the chart provides the updated status of the applicable CCAF Associate of Applied Science (AAS) degree programs. The next programs to align from CCAF to CAHS is Medical Laboratory Technology and Biomedical Equipment Technology, tentatively scheduled to transfer in November 2021.

Mr. J.R. Breeding, Associate Dean of Academic Programs
FROM ACADEMIC PROGRAMS

Basic Military Training Credit

The USAF Basic Military Training (BMT) curriculum has been approved for award of CCAF academic credit. However, implementation was delayed until completion of systems programming and resolution of a firewall issue. These items were completed 15 January 2021.

CCAF institutional credit will be awarded for the portion of BMT curriculum that is taught by qualified CCAF faculty. Air and Space professionals who complete USAF BMT after 17 October 2019 will earn five semester hours credit in Military Studies that can be applied toward the CCAF Leadership, Management and Military Studies (LMMS) requirement in all AAS degree programs.

To be awarded this credit, the student must have completed USAF BMT on or after 17 October 2019. A student who completed USAF BMT before 17 October 2019 will not be awarded academic credit due to the course and faculty not being part of the CCAF system.

CCAF student records have been updated for applicable students. Future USAF BMT completions will be reported to CCAF and student records will be updated automatically via scheduled data feed from a system interface. If an eligible student record does not reflect USAF BMT course completion, please submit a CCAF Student Action Request to add a military course to the student record.

Mr, J.R. Breeding, Associate Dean of Academic Programs
The Community College of the Air Force at Air University and Stillman College signed a partnership recently allowing the north Alabama school to offer online general education courses to Airmen pursuing their CCAF associate degree.

Stillman, located in Tuscaloosa, is the first Historically Black Colleges and Universities to sign up with CCAF’s General Education Mobile Program.

The GEM Program allows CCAF students to enroll in partnering civilian academic institutions to fulfil general education course requirements needed for associate in applied science degrees.

“Despite the challenges that COVID-19 has created for education, the push to move courses online helped Stillman College meet requirements to become a GEM partner, and we are really excited to partner with them,” said Lt. Col. Melanie Presuto, CCAF commandant. “Adding courses from Stillman College to the growing list of over 2,192 approved GEM courses increases choice and diversity of partnerships to elevate the enlisted profession. The associate of applied science degree from CCAF supports recruiting, retention, career transition efforts and mission capability and readiness.”

Partnering institutions offer the courses through distance learning, reducing the educational interruptions of deployments, permanent-change-of-station moves and family commitments. Students contact the GEM partnering school directly to enroll in general education courses, delivered via Air Force Virtual Education Center.

“At Stillman College, we are deeply honored to be the first HBCU to partner with Air University as part of the CCAF GEM program,” said Dr. Mark McCormick, Stillman provost and vice president of academic affairs. “Stillman College is constantly looking for new avenues to provide educational opportunities to traditional and non-traditional students. It seems a natural fit to partner with the CCAF GEM program to fulfill the need for general education classes.”

The average graduation time of a student enrolled in the CCAF degree program is eight years, with general education courses often being the last requirement fulfilled. The GEM program aims to reduce that time by half by simplifying course selections through AFVEC.
“Adding additional partners to the GEM Program increases student course selection and registration, all accessed in one place, which helps,” Presuto said. “Providing these courses in an anytime, anywhere online format facilitates student planning across entire general education curriculum, and motivates students to complete courses on a self-paced timeline. Partnering with colleges in the community builds trust and relationships and enhances many initiatives from collaboration to community service and outreach.”

For more information about the GEM program, contact ccaf.decm@us.af.mil and visit: https://www.airuniversity.af.edu/Barnes/CCAF/Display/Article/803250/general-education-mobile-gem/

Staff Sergeant Daniel Christie

SSgt Daniel Christie is the Manager of Intelligence Studies and Technology Degree Program, Community College of the Air Force, Air University, Maxwell Gunter AFB, Ala. He serves in a position utilizing career field expertise to develop, implement, and manage degree programs serving over 14,000 enlisted members. Additionally, he evaluates and translates military technical course curricula for conversion to civilian collegiate credit, advises education counselors, and counsels students on academic policies and academic best practices by using multiple systems to monitor student degree progression.

SSgt Christie entered the Air Force in March 2016. He completed the basic intelligence fundamentals course at Goodfellow, AFB, San Angelo TX, and has since worked in various intelligence roles, providing analysis and integrative support to the DoD. Prior to his current position, SSgt Christie was the Integration Lead, 32d Intelligence Squadron, Fort George G. Meade, Md.

SSgt Christie recently wrote his master’s thesis titled, “Intrinsic Motivation and Retention in the Military,” a study which examined levels of motivation, engagement, and satisfaction from members of the military.

Prior to enlisting, SSgt Christie was the History Department Chair for The Phelps School, Malvern Pa. Additionally, SSgt Christie taught high school English and History, for four years, in Philadelphia, where he developed course curriculum for a start-up cyber school.

EDUCATION

2009 Associate of Arts, Education, Lehigh Carbon Community College, Schnecksville, PA.
2012 Bachelor of Science, Education, West Chester University, West Chester, PA.
2018 Associate of Applied Science, Intelligence Studies and Technology, Community College of the Air Force
2019 Master of Science, Organization Development and Leadership, Saint Joseph’s University, Philadelphia, PA.
2020 Airman Leadership School, Fort George G. Meade, MD.

ASSIGNMENTS OR CAREER CHRONOLOGY

March 2016 – April 2016, Trainee, Basic Military Training, Lackland AFB, TX.
April 2016 – September 2016, Student, Signals Intelligence Apprentice Fundamentals Course, Goodfellow AFB, TX.

(Continued on page 18)
September 2016 – August 2020, Integration Lead, 32d Intelligence Squadron, Fort George G. Meade, MD.

August 2020 – Present, Program Manager Intelligence Studies, Community College of the Air Force, Maxwell Gunter Air Force Base, AL.

MAJOR AWARDS AND DECORATIONS

Army Achievement Medal

OTHER ACHIEVEMENTS

2016 Basic Military Training Honor Graduate

EFFECTIVE DATES OF PROMOTION

Airman First Class, March 1, 2016

Technical Sergeant Heather King

Technical Sergeant Heather K. King is an Affiliate School Manager at the Community College of the Air Force (CCAF), Maxwell-Gunter AFB, Alabama. She is responsible for the affiliation and administrative processes for 23 schools and 1,180 instructors nationwide.

Sergeant King enlisted in the Air Force in 2007. She graduated from the Medical Material course at Sheppard Air Force Base, Texas in May 2007 and was assigned to the 49th Medical Group at Holloman AFB. During this time, she deployed to Southwest Asia in support of Operation NEW DAWN. In May 2013, she cross trained and graduated from the Education and Training Manager course at Keesler Air Force Base, Mississippi. From there she served at the Air Force Personnel Center managing mission readiness and craftsman course training worldwide.

Prior to her current assignment, Sergeant King served as Registrar and an Instructor for the Classroom Instructor Course at the 436th Training Squadron, Dyess AFB, Texas.

EDUCATION

2007 Medical Material Apprentice Course, Sheppard AFB, TX.
2011 Airman Leadership School, Holloman AFB, NM.
2011 Associates in Applied Science, Logistics, CCAF
2013 Education and Training Apprentice Course, Keesler AFB, MS.
2015 Associates in Applied Science, Education and Training Management, CCAF
2016 Bachelor of Arts, Social Psychology, Park University
2018 Non-Commissioned Officer Academy, Sheppard AFB, TX.
2019 Associates in Instructor of Technology and Military Science, CCAF

ASSIGNMENTS OR CAREER CHRONOLOGY

1. Feb 2007 – Apr 2007, Student, Basic Military Training, Lackland AFB, TX.

(Continued on page 20)
7. Jul 2013 – Dec 2013, Unit Training Manager, 49 SFS, Holloman AFB, NM.
10. Dec 2017 – Nov 2020, ACC Classroom Instructor Course Instructor, 436 TS, Dyess AFB, TX.

MAJOR AWARDS AND DECORATIONS

Air Force Commendation Medal with two oak leaf clusters
Air Force Achievement Medal
Meritorious Unit Award with two oak leaf clusters
AF Outstanding Unit Award
AF Organizational Excellence Award

OTHER ACHIEVEMENTS

2018 Lance P. Sijan Award, 552d Air Control Wing, Tinker AFB, OK.
2018 NCO of the 3rd Quarter, 552d Training Group, Tinker AFB, OK.
2018 ACC Education and Training Manager of the Year
