

AIR UNIVERSITY Teaching & Learning Center

TLC

May 2022

Supporting Excellence in Teaching and Learning across all of Air University

The Air University (AU) Teaching & Learning Center (TLC) is the focal point for activities related to the enhancement of teaching and learning at AU. We provide resources, expertise, guidance and facilities to increase the ability of faculty to teach and students to learn.

News

THE AIR UNIVERSITY'S Teaching & Learning Center
together with Marine Corps University proudly presents:

Neuromyths

11 May | 1200-1330 CT
1300-1430 ET

featuring
Prof. Stase Wells
Leadership Communication Skills Center
Marine Corps University

Join us to learn how mind, brain, and education science relates to military learning communities. We will address common misperceptions about the brain so you can level up in your instructional practice!

- Our “Neuromyths” webinar is open to the entire military learning community—we hope to see you on 11 May (no registration required). [Click Here](#) or use the qr code above to join the webinar.
- Special thanks to Dr. Chris Shannon of the Global College of PME for leading a TLC Staff ride on 28 April. He led the TLC team in an examination of **Kotter’s 8-Step Process for Leading Change** using the **Civil Rights Movement** as the contextual backdrop.

TLC Programs

TEC is offered in multiple modalities:
In Person, Hybrid, or Online Self-Paced.
For more information visit our [website](#).

• 6 - 10 June - Hybrid Teaching Essentials Course

Join us to explore **best practices for facilitating an inclusive and active learning environment**.
To register, visit our website or email autlc@au.af.edu.

Learn Tech Tours (LTT)

3rd Thursday at 1500 via Microsoft Teams

• 19 May - Building Learning Content using Camtasia 2021

The March LTT, “**Understanding the Immersive Learning Taxonomy**,” showcased different types of immersive experiences developed and used in programs at Air University.

All LTTs are available by scanning the QR code

Immersive Learning

Research: TLC researchers, supporting the Immersive Learning Research Task Force, attended a strategy competition at the U.S. Army War College to conduct research on strategy formulation and problem-based learning in PME. Additionally, the team is currently analyzing Chaplain Corps College data for course trends after the implementation of virtual learning environments within the curriculum. Lastly, the team is gearing up for a study looking at olfactory virtual reality and its use in stress reduction for first responders.

Other examples of Immersive Learning initiatives at Air University:

- Dr. Sandra Schoder at the Defense Language Institute detachment at AU created a Microsoft Sway that integrates quizzes via MS Forms and hyperlinks to 360-videos. Students don Oculus Quest virtual reality headsets in this immersive language, culture, and geospatial experience.
- The TLC is building a 360-degree virtual tour of the Enlisted Heritage Hall located at Gunter Annex. This virtual tour will enable Airmen to visit the EHH via computer, mobile device, or VR headset. A sample is available by scanning the QR code.

See the 360-degree virtual tour

Learn Tech Equipment Catalog:

The TLC has a wide array of **Learn Tech gear available to AU faculty, students, and staff**. VR/AR gear, 360 cameras, podcasting equipment, and more are available for sign-out by scanning the code to the right. **Training/consultation available by request.**
