Welcome to the Edge!

This month, The Leading Edge brings you a look at team building. As with previous months, this course is designed to help leaders understand the importance of building a strong team. The course includes a variety of activities, from discussions to team-building exercises, that will help you develop the skills you need to lead a successful team.

Published monthly, The Leading Edge is designed to generate ideas for your courses and serve as a bridge between flight-level leadership expertise at Air University and course directors, lesson managers, and individual leaders in the field. If you have suggestions for future topics, or resources that you would like to see distributed across the forces, contact us at The Flight Commander’s Edge. We appreciate the topic suggestions, so keep submitting them!

Course Director Corner

“Leadership is a human relationship between leaders and followers.”

Richard Swain and Albert Pierce

The Applied Perrone Officer

Building and Motivating Teams

What makes a team successful?

Ask these questions of yourself and your flight members:

• What is an effective team?
• What is your team’s identity?
• What is your team’s trust?
• What is your team’s confidence?
• What are your team’s results?

What makes an effective team?

As with previous months, the FCE lesson “Building and Busting Teams” is expanded to include methods for leading and improving remote teams. As noted in the FCE lesson “Building and Busting Teams,” the first (and most important) step to building an effective team is to work both collaboratively and independently toward the team’s goals. As highlighted in the FCE lesson “Building and Busting Teams,” the first question you should ask the team is “What is your team’s identity?”

What is your team’s identity?

An effective team has a strong sense of identity. When you join the FCE Virtual Course, the FCE community will benefit from your experience. To learn more about the FCE Virtual Course, visit our website and read the lesson guide. If you have any questions or comments, please contact us at FlightCommandersEdge@us.af.mil.

Questions to Consider
